# Technical Specifications

Specification	Details
Operating Weight	6000–7500 kg
Rated Load Capacity	2.0 – 2.5 Tons
Engine Options	Weichai / Yunnei / Cummins
Engine Power	76–92 kW
Bucket Capacity	1.0 – 1.5 m <sup>3</sup>
Dump Height	3500–3800 mm
Dump Reach	900–1100 mm
Breakout Force	≥ 48 kN
Drive System	4×4
Transmission	Hydraulic torque converter
Hydraulic Pressure	16–18 MPa
Tire Size	16/70-24
Travel Speed	0–38 km/h

## Applications

The LY942 is suitable for:

- Construction & building materials transport
- Road infrastructure projects
- Sand, gravel, and stone loading
- Brick kiln operations
- Agricultural & livestock farm use
- Warehouse & yard operations
- Industrial waste handling

## Key Features

- High hydraulic lifting power
- Strong boom with reinforced structure
- Fuel-efficient diesel engine
- Powerful 4×4 drive system
- 360° operator visibility
- Spacious cabin with optional AC
- Heavy-duty tires for uneven terrain
- Easy accessibility for maintenance

## Optional Attachments

- Standard bucket
- 4-in-1 multifunction bucket
- Pallet forks
- Log grapple
- Snow blade
- Rock bucket

## Safety Guidelines

- Always fasten seatbelt while operating
- Do not exceed rated load capacity
- Keep bucket low during travel
- Avoid steep slopes or unstable ground
- Maintain safe distance from workers
- Perform daily inspections before operation
- Lower bucket completely before shutting off machine
